### QUESTIVITIES™: Mixtures

1. List as many mixtures as you can.
2. Compare and contrast two of these mixtures.
3. What would happen if mixtures could not be formed?
4. Would you rather be a mixture or a component of a mixture?
5. Why is water not a mixture?
6. What are ways in which mixtures can be separated?
7. Why are mixtures useful in everyday life?
8. How is a mixture like a computer, a motor bike, a river, a mobile phone or a gold mine?
9. Active Questions
  - Make a list of questions that a mixture might ask of a pure substance.
  - The answer is Mixture. What are the questions?
